You'll need a strong cup of coffee first: Just the Response to Comments will be more than 400 pages long (and more entertaining than the final permit)!

No worries, Douglas. I'll just keep trucking along with the permit. I'd love to read the DB one when it's done.

Lise

Its all hands on deck for the final two week push on Dewey Burdock but I will try to get to this by Friday for a brief look.

Douglas,

Since it's just you and me at the moment, I'm sending this directly to you rather than Sharepoint (although it has been working better for me in the last week or two).

I've also attached the Habitat Assessment that was done for the Cottonwood Park project located within the service area, just for reference.

Let me know what you think!

Lise
